Representatives were from around the world. They are searching for various sites and locations, touring all of the Ports in northeastern Ohio to see where they could assemble the wind turbines. This is a future project, approximately two (2) years out. The ground work is being done now. Various dock representatives, the City of Lorain and the Ford Plant attended this meeting, going through all the sites that are available. Information is still being gathered to deliver to Leedco. This is a pilot project and the duration would be for approximately four (4) years.

the fact that there are some voids present. This will be completed this week and the footers will begin to be poured again.

6. **Report of Committees**

A. **Contract Management Committee.**
   1. **Insurance Consolidation.** Mr. Novak stated at the last Board Meeting the Board authorized entering into a Contract with Allen Thorley DeLloyd, subject to allowing Somers to provide a quote. Allen Thorley DeLloyd reviewed all of our policies and consolidated them. With consolidating the policies, there is a reduction from the last meeting with the Board. Somers was not able to provide a quote, therefore, Allen Thorley DeLloyd will be our insurance company. Mrs. Smith and Mr. Novak met with Allen Thorley DeLloyd providing additional information that helped reduce the risk that they thought the Port Authority had by explaining the Port Authority programs, policies and procedures. The price has dropped from $62,000.00 to $57,000.00. There is about an $18,000.00 savings. Traveler’s Insurance provides insurance to governmental agencies. Mr. Novak thanked Mr. Mullins for his involvement in this insurance process.

   2. **City of Huron Agreement.** Mr. Novak indicated the Agency has been working with the City of Huron, Ohio on excursions with the Jet Express. The Jet Express would stop in Huron, pick up passengers, travelling to Lorain for more passengers and travel on into Cleveland. Mr. Brosky reviewed the Agreement with Mr. Novak. The Huron passengers will be part of four (4) trips, two (2) Horseshoe Casino trips then two (2) of the Cleveland Browns trips. More than thirty (30) people have signed up for the trip in July. This is an ideal partnership.

4. Ratify Contract with Huffman Black River Landing Dock Improvements. Mr. Bruening indicated that at the last Board meeting the Board approved the Director to enter into a contract with the low bidder, provided legal counsel approval. A ratification of the Contract is needed. The original low bid, Concrete & More, Inc. was a total of $86,288.25. Unfortunately, that bid had to be rejected due to the fact that one of the forms that were required to be filled out was not incorporated in the bid. The next lowest bidder was Huffman Equipment Rental & Contracting, Inc. for a total of $89,140.50 for the Contract amount and adding a contingency of $10,859.50, total Project cost is $100,000.00.

The Agency has partnered with the City of Lorain before. The Agency has worked with the City of Lorain on the Carnegie Library. The City of Lorain has approached the Agency concerning the old El Centro Office on East 31st Street, Lorain, Ohio. The City of Lorain would like to turn that structure over to a non-profit organization, a valor type facility dealing with Veterans and other non-profit social functions. The City of Lorain would have to bid this Project but by turning it to the Agency, the Agency would not have to bid. There are issues that need to be taken care, taxes and so forth on that building and we

would want to make sure that we have an environmental review completed of the building before we are involved. This is a future endeavor.

Mr. Novak updated the Board regarding the environmental review, which has been completed for the Carnegie Library. This has been forwarded to the City of Lorain for review. The issue of the sign location in front of the Health and Family Dentistry Building is under review as there were underground storage tanks there in the past.
